

# GOLDEN ORCHESTRA

## Bitonto Show & Street Band

### Music is the art of thinking with sounds.

The Golden Orchestra Bitonto Show & Street Band was founded in the late 90's as a street band animation composed of multi-instrumentalists able to animate and manage street festivals, buskers festivals and spectacular events.

Over the years the band has achieved a high level of musical training, teamwork and ability to adapt to the musical accompaniment during fun and spectacular situations.

The natural evolution in the orchestra accompaniment of circus numbers has confirmed the versatility of the artists and their ability to adapt to different situations. However, the inclination to follow circus shows has been one of the most musically and artistically interesting of the ensemble.

The band is modular and the number of components changes depending on the needs of the event from the mini band of 5 elements to the great big band.

In the circus we propose 8 elements including rhythm and horn section capable of expressing strength, rhythm and musicality at the performances and the numbers presented.

The band has got in its staff also a composer, graduated in orchestration and conducting at the prestigious music conservatory in Bari who can write and

perform jingles, theme songs and interludes in real time, adapting to the needs of the show.

This peculiarity has allowed the band to participate in innovative artistic projects with some of the biggest names of Italian music in the studio and live.

In the curriculum of the band there are also partnerships with leading chains of shopping malls, hotel chains, ships cruises and exhibitions in many European countries for openings, Christmas events, carnival and entertainment services during the summer season in the seaside resorts.

Orfei family called Bitonto Street & Show band to follow the evolution of the artists of the Golden Circus, the International Circus Festival of Rome in two of the last three editions. On both occasions the band has received a great success with audiences and critics with numerous contacts for partnerships and participation in tours and special events.

Bitonto show & street band continually seeks for new professional experiences in partnership with artists from more disparate backgrounds and with many different types of performances.

can also include family portraits, or photographs from family vacations. Think about what you would tell your family and friends if you could see them.

The best choice for classic Big Band, Variety, classical, blues and Swing Music for your special event!

*"There is nothing more impressive than the sound of a this Band...."*

## BITONTO SHOW & STREET BAND GOLDEN CIRCUS

BITONTO SHOW & STREET BAND GOLDEN CIRCUS ORCHESTRA Musicians , improvisers , brilliant performers. The Golden Circus Orchestra blends music capabilities to the innate sensitivity in being able to point out the most exciting moments of intense and circus show . 8 instrumentalists , coming from the most various musical experiences from the street art up to large symphony orchestras , ready to entertain and have fun accompanying artists both in their performances both in the initial and final catwalk . In a circus the orchestra is the icing on the cake to tell a dreamlike atmosphere that only the track can give.

## *a Life without music is not a life*

The Bitonto Show & Street Band is available as a strolling or stationary band. This versatile band can also transition into dance and party music if requested..

**Strolling:** The Bitonto Show & Street Band strolling band is available as a mobile, acoustic group and requires no electricity. The strolling band performs for parades, opening sessions, general sessions, atmosphere entertainment, trade shows, and house parties.

**Stationary:** The Bitonto Show & Street Band lights up the stage with a sound that is uniquely theirs, setting them apart from the typical band that tends to sound the same song after song. They use no outdated sequences, synthesizers, or midi files. They are accompanied by a live recording of piano, bass, drums and guitar.
